

Complete fencing solutions.

West Bay offers a full selection of Western Red Cedar fencing solutions, including posts, rails, and pickets.

FEATURES

Western Red Cedar makes for the perfect fence in any climate – and once installed, it's there for the long-run.

Western Red Cedar has a natural resistance to insects and decay, along with temperature and weather conditions. This limits warping and twisting meaning it will maintain its durability over time.

Add in a nice stain or finish, and you have a beautiful fence that will last for many years.
