

## Consistency for your order.

West Bay Nickel Gap products are crafted from high-quality Western Red Cedar, which is known for its superior beauty and durability. This tight-knot fibre is carefully selected to meet our quality standards and is milled and processed to create beautiful pattern stock items.

## FEATURES

Cedar Nickel Gap siding is an ideal siding solution, offering a consistent gap between boards and a clean look upon final installation.

It is often desired for modern home designs due to its pleasing aesthetic and excellent versatility for indoor applications.

## SPECIFICATIONS
